## **1 General Provisions**

On the basis of the license KZ04LAA00032042 from 17.09.2021 at the Law Faculty of «Alikhan Bokeikhan University» is carried out training with awarding students the academic degree «Bachelor» on the educational program 6B04222- «Investigative and Prosecutorial Activity».

The development plan of educational program 6B04222 «Investigative and Prosecutorial Activity» is developed on the basis of the State Program of Education and Science Development of the Republic of Kazakhstan for 2020-2025, as well as in accordance with the Development Strategy of EE «Alikhan Bokeikhan University» for 2020-2025.

EP 6B04222- «Investigative and Prosecutorial Activity» provides educational services aimed at training competitive and highly qualified specialists taking into account the national priority of the state policy in the field of education, the strategy «Kazakhstan - 2050», based on the tasks set by the President of the Republic of Kazakhstan, the State Program of Education and Science Development of the Republic of Kazakhstan for 2020-2025, in accordance with the Development Strategy of «AlikhanBokeikhanUniversity» for 2020-2025.

EP 6B04222- «Investigative and Prosecutorial Activity» carries out educational activity in accordance with the Mission of the University: «Training of competitive personnel with higher education in a wide range of areas oriented to industrial-innovative development of the region».

EP code 6B04222 - «Investigative and Prosecutorial Activity» corresponds to the classification in the field of education - 6B04 «Business, Management and Law», in the direction -B042 «Law». This direction is one of the special conditions for the realization of quality education in the system of provision and training of law enforcement investigators and prosecutors.

The exclusivity of the educational program is that the students in the process of studying scientific legal disciplines could master, and skillfully apply the acquired knowledge and skills to investigate criminal offenses, expose and bring to criminal responsibility of persons who committed them, the protection of citizens, society and the state of criminal encroachment. The peculiarity of EP 6B04222- «Investigative and prosecutorial activity» is that the disciplines studied, in its content and direction are applied, aimed at the investigation of criminal offenses.

The relevance of training EP 6B04222- «Investigative and prosecutorial activity» is that the process of continuous learning is associated with the acquisition of theoretical knowledge and practical skills and abilities, which contributes to the formation of employees of the investigative apparatus and prosecution bodies. In particular, the modular educational program and the catalog of elective disciplines on this educational program are designed in such a way that highly qualified specialists can provide human resources potential of law enforcement agencies in the region of Abay and in general in the Republic of Kazakhstan.

The main purpose of the Educational Program 6B04222- «Investigative and Prosecutorial Activity» is to train competitive specialists of investigative and

forensic apparatus, employees of the Prosecutor's Office, as well as in other positions of law enforcement agencies of the republic.

The policy of the modular educational program (MEP), catalog of elective disciplines (CED) EP 6B04222- «Investigative and Prosecutorial Activity» is aimed at continuous improvement of the image among consumers of educational services represented by students and social partners (employers). For individualization of training and actualization of 6B04222- «Investigative and Prosecutorial Activity» with the participation of leading scientists and teachers of the department, dean's office of the faculty, together with internal and external stakeholders systematically updated and updated academic disciplines.

The internal stakeholders include members of the Student Committee of the Faculty of Law, students of EP 6B04222- «Investigative and Prosecutorial Activity» SPD-301 - Kusmanova Ulzhan; SPD-301 - Kasym Shyrin; SPD-301 - Nuradil Tokenov; SPD-302 - Keneskan A.; SPD-302 - D. Yemiyarov; SPD-302 - D. Kusmanov.

## **2 Analysis of the current situation and trends in the development of the labor market and educational services**

### **Orientation 1: Educational activities.**

In 2022/23 academic year EP 6B04222- «Investigative and Prosecutorial Activity» is included in the register of educational programs of the Unified System of Higher Education Management of the Ministry of Education and Science of the Republic of Kazakhstan.

In accordance with the strategic development plan of the University, the organization of the educational process of EP 6B04222- «Investigative and Prosecutorial Activity» is built on the principle of continuity of providing professional knowledge to students, taking into account the investigative and forensic experience and supervisory activities of the prosecutor's office. Realization of constant monitoring of changes in the national legislation in the field of criminal and criminal procedural law, civil and civil procedural law, compliance with the state policy aimed at improving the investigative apparatus of the law enforcement service and prosecution bodies of the Republic of Kazakhstan. On the basis of systematic provision of material and technical base of educational activity is carried out with the use of digital and innovative technologies, modern achievements of science and technology, allowing to improve the methodology of teaching lectures, laboratory, practical classes, IWS and IWSL.

To improve the quality of education EP 6B04222- «Investigative and Prosecutorial Activity» faculty with the participation of social partners, employers, graduates and students monitors the disciplines studied. In the analysis of determining the demand for the studied legal disciplines is the introduction of applied and multiplicative disciplines, which in the future can meet the needs of students in obtaining quality knowledge, skills and abilities.

In order to effectively modernize the educational program involves social partners who carry out official and professional activities: Prosecutor's Office of Abay region, DP of Abay region of the Ministry of Internal Affairs of RK, Line OP at Semey station DP on transport of the Ministry of Internal Affairs of RK, transport prosecutor's office of Abay region, court of Abay region, DCUIS of Abay region of the Ministry of Internal Affairs of RK, bar associations of Abay region.

In order to improve the educational process and successful mastering of professional knowledge by students EP 6B04222 - «Investigative and Prosecutorial Activity» annually undergoes expert evaluation by internal and external stakeholders who are employees of law enforcement agencies and judicial system of the Republic of Kazakhstan.

Semey, Abay region of the Republic of Kazakhstan, Nesypkhanov O.S.; Head of the group of personnel work of the Prosecutor's Office of the Abay region

of the Republic of Kazakhstan, Counselor of Justice Tuleulenov M.T.; Deputy Prosecutor of the Specialized Environmental Prosecutor's Office of the Abay region of the Republic of Kazakhstan, Counselor of Justice Bekenov B. K.; Deputy Head of the Department of the Prosecutor's Office of the Abay region of the Republic of Kazakhstan. T.; Head of the Investigative Department of the Prosecutor's Office of the region. T.; head of the Investigation Department of the Police Department of the region Abaypolkovnik of Police Adilbaev S.M.; Shynybaev E.K. chairman of the specialized administrative court of Semey city; PhD, Saimanova Sh.A. RGP on PHV «Institute of Parliamentarism»; PhD, Saulen N. RGP on PHV «Institute of Parliamentarism»; Ph, Ostapovich I.Y.Y., Professor of Constitutional Law Department of V.F.Yakovlev UrGYU; Kosayev O.E., Chamber of Legal Consultants; Samashev J.K., Deputy Department of Justice of Abay region; Mukasheva N.K., Chairman of Specialized Interdistrict Administrative Court of Abay region; Abdikarimov N.B., Chairman of Semey City Court of Abay region; Ph, Kanatov A.K. Kanatov RGP on PHV «Institute of Parliamentarism»; Kambarov A.K. doctoral student of 3 course; Zakharevich T. Master's student of the 2nd year; Kydyrmulla D.E. Student of the 3rd year.

For effective organization of educational process on educational program EP 6B04222 - «Investigative and prosecutorial activity» function «Laboratory of pre-trial investigation», «Forensic laboratory», «Forensic polygon» of SU DP of Abay region, «Hall of educational trial», there is a circle «Young proceduralist», «Young criminologist».

The laboratories are structural subdivisions of the UPD Department. The key purpose of the «Pre-trial Investigation Laboratory» and «Forensic Laboratory» are:

- provide assistance in organizational and methodological support of lecture and practical classes using innovative technologies;
- practice-oriented lecture, practical and laboratory classes on special legal disciplines;
- use of forensic technical means and methods to impart professional knowledge, skills and abilities in criminal law disciplines.

Cabinet «Hall of educational judicial process», is intended for realization of informational and educational-methodical activity, quality assurance of educational process, directed on formation of scientific knowledge and practical skills on carrying out of educational judicial hearing on criminal cases by students in strict accordance with criminal procedural legislation of the Republic of Kazakhstan.

EP 6B04222 - «Investigative and Prosecutorial Activity» operates research circles «Young Proceduralist», «Young Criminologist». The main objectives of the organization of circles are scientific-research, information and analytical activity of students, motivation of scientific-research and practical work, imparting skills of independent scientific-research and professional activity and ensuring professional and ethical qualities of employees of the investigative and prosecutorial apparatus. The work of circles is aimed at identifying and forming leadership qualities, analytical thinking skills, mastering the most complex and relevant issues of law enforcement activity.

Scientific circles presuppose the development of legal culture, judicial rhetoric on discussion and debate, contribute to the development of logical thinking, argumentation of their position, search and problem solving on current problems of theory and practice, mastering the skills of professional writing and stylistics, developing skills in interpreting normative and legal acts, analyzing scientific legal literature. Employees and veterans of law enforcement agencies, judicial system, advocacy take part in the organization of the scientific circle and provide assistance. In the framework of the scientific circle also prepares students to participate in interuniversity, national, international scientific conferences, competitions, round tables, Olympiads, demonstrative educational trials, as well as to write theses on disciplines of criminal - legal disciplines.

The whole educational process of the educational program 6B04222 «Investigative and Prosecutorial Activity» is built in such a way that the student during the entire learning process must obtain sustainable, continuous and quality knowledge. In order to objectively assess the obtained theoretical knowledge and practical skills, the educational process provides forms of control in the form of tests, oral, written and demonstration examinations. In addition, students are evaluated by the State Attestation Commission, which includes practicing law enforcement officers and judiciary.

An important moment of training is the subsequent employment, the policy of employment of students is connected with systematic activities of the faculty of the department and employers, the main purpose of which is to cultivate the profession of investigator and prosecutor among students. Monitoring of the employment of graduates is based on the national rating conducted by the National Chamber of Entrepreneurs «Atameken». At the moment, the dynamics of

employment EP 6B04222 «Investigative and prosecutorial activity» is under constant control from the faculty of the department and employers, taking into account the official data of vacancies of the position of investigator and prosecutor at the regional level and in the whole country. Percentage indicators are not presented due to the lack of graduate courses of this program.

In the future one of the priorities is employment of students of EP 6B04222 «Investigative and prosecutorial activity», for this purpose the possibility of preparation of students for professional certification is provided. Preparation of professional activity is conducted purposefully systematically, for this purpose conditions for preliminary certification of students, the main idea of which is to prepare graduates to pass tests on the knowledge of national legislation, state language in the regional department of the Agency for Public Service Affairs (APSA) of the region of Abay.

The realization of professional certification is carried out systematically according to the approved curriculum with the active participation of the teaching staff of the department, employers. The educational process is based on the use of interactive teaching methods, organized with the account of mutual control and self-control of students, in preparation of graduates to solve tests, situational tasks.

To solve the problems of employment of graduates of EP 6B04222 «Investigative and Prosecutorial Activity» faculty of the department together with the dean's office of the Faculty of Law, with the employment center, the Center «Career» will be held fair graduates with the participation of social partners and employers. Strengths:

- Internal (teaching staff, students) and external stakeholders (social partners, employers) are involved in the development of the educational program;

- Participation in the ratings of the Independent Agency for Quality Assurance in Education and the National Chamber of Entrepreneurs of the Republic of Kazakhstan «Atameken»;

- Material and technical equipment, allowing to conduct classes with the use of innovative technology, creating conditions as close as possible to the conditions of committing a crime, the use of technical and forensic means and methods for the detection and seizure of trace information, analysis of the evidence base and use them to put forward an investigative version in the investigation and detection of criminal offenses;

- Of the total number of students of EP 6B04222 «Investigative and Prosecutorial Activity», 34% are holders of republican and regional grants. Analyzing the main problems:

- Not enough in full is the interaction between the teaching staff of the department and the law enforcement and judicial system of the Republic of Kazakhstan related to the improvement of teaching methods of practical and laboratory classes. This is due to objective circumstances social partners, represented by law enforcement agencies are burdened with the performance of functional duties, normative-legal acts in the field of law enforcement activities are used only for official use, employees are burdened with the regime for the observance of state secrets and secrecy of the investigation.

- The quantitative indicator of students EP 6B04222 «Investigative and prosecutorial activity» is low and leaves much to be desired.

### **Orientation 2. Research and development activities**

The research activity of EP 6B04222 «Investigative and Prosecutorial Activity» is conducted on the basis of the legislation of the Republic of Kazakhstan and internal normative and legal acts of «Alikhan Bokeikhan University».

In order to form the research bases of EP 6B04222 «Investigative and Prosecutorial Activity», the teaching staff of the department interacts with the Research Center (RRC) of the Faculty of Law: «Actual problems of jurisprudence». Within the framework of this center are formed research projects, round tables, international scientific-practical conferences aimed at popularizing the EP.

Planning, consideration and discussion of current problems of EP 6B04222 «Investigative and Prosecutorial Activity» is carried out on the basis of the prospective topics of scientific research of the department, are formed once every three years and are subject to state registration in the JSC «NCSTE». For 2023-2024 academic year the approved theme is: «The main vectors of modernization of law enforcement and judicial activity in the conditions of digitalization and sustainable development of society» (0122RKI0186).

Within the framework of improvement of this scientific direction the faculty of the department annually organizes scientific-practical seminars, scientific-theoretical seminars, round tables and international scientific-practical conferences.

Thus, on January 27, 2023, the Faculty of Law of Alikhan Bokeikhan University held a round table on the theme: «Graduate - through the eyes of the employer» with the participation of social partners of the university. The round table was attended by faculty members of the Department of Criminal Law Disciplines, leading scientists of the Faculty of Law, social partners represented by law enforcement officers, civil servants of the judiciary, justice department and other non-state legal organizations.

The round table was attended by: prosecutor of the Department for the Protection of Public Interests of the Prosecutor's Office of Abay region - Kadylbekov A.E., deputy head of the Investigation Department of the Police Department of Abay region, Lieutenant Colonel - Elikov T.S., deputy head of the Economic Investigation Service for Abay region, Colonel of Justice - Turlybaev O.N., deputy head of the Department of Justice of Abay region - Samashev Zh.

More than 50 participants took part in the international scientific and practical conference.

On December 19, 2023, the Department of Criminal Law Disciplines of the Faculty of Law of Alikhan Bokeikhan University and the Police Department of the Abay region discussed the issues of training of professional staff, the development of the professional education and new joint projects. The deputy head of the DP familiarized the students with the new cooperation project on training at the forensic polygon. Within the framework of the project, a memorandum on dual education was signed between the Abay Police Department and the Department of Criminal Law Disciplines of the Faculty of Law of Alikhan Bokeikhan University. Deputy Head of the Abay Oblast Police Department, Police Colonel E.D. Zakimov thanked the university administration for the well-coordinated work and high professionalism of the teaching staff of the Faculty of Law.

University activists not only took part in the life of the university, but also

contributed to the maintenance of public order along with the police officers of the region. Colonel of Police E.D. Zakimov awarded Kaliev-Daulet Kaliev, a student of the Faculty of Law, Sarbiev Kuandyk, Eshkenova Dilnaz and Slyamova Arai with letters of thanks letters of appreciation. The university leadership awarded the head of the DP of the region Abay, Major General of Police B.J.Sultan, Deputy Head of DP of Abay region, Col.Abay Oblast DP, Police Colonel E.D.Zakimov, Head of Investigation Department of the Abay Oblast DP, Police Colonel E.D.Zakimov Police Colonel S.M.Adilbekov, Head of the Investigation Department of the Abay Oblast Department of Internal Affairs personal medals for the contribution to the development of education Law Faculty of Alikhan Bokeikhan University.

Leading teachers of the department together with the staff of investigative departments of the Ministry of Internal Affairs of the Republic of Kazakhstan conduct research work in the framework of circles «Young Proceduralist», «Young Criminologist». Circles contributes to the consolidation of theoretical knowledge of students, as well as to prepare scientific reports and get useful advice from mentors on problematic issues of theory and practice of criminal proceedings.

As part of the development of dual education, students of EP 6B04222 «Investigative and prosecutorial activity» in the «Forensic polygon» Auezov OP UP Semey, DP area Abay MIA RK conducted practical training, investigators, experts-criminalists. Conducting practical classes by employees of pre-trial investigation bodies contributes to the consolidation of theoretical foundations of the studied criminal legal disciplines, as well as the acquisition by students of practical skills for the effective use of acquired knowledge and skills in practice.

In a specialized room «Training courtroom» students, together with teachers, social partners conduct scientific research on topical issues of theory and practice of criminal proceedings. Students on the basis of modeling of the educational trial on various categories of criminal offenses develop skills in judicial rhetoric, together with teachers and acting judges construct the main trial in accordance with criminal procedural legislation.

The main prerogative of the teaching staff of the department is the research activity aimed at systematic involvement and participation of scientists and teachers, as well as students in international conferences, round tables, olympiads.

The main criterion of research activities EP 6B04222 «Investigative and prosecutorial activity» is to increase the publication activity of scientists, leading teachers of the department in publications included in the Scopus database, recommended by the CCSES MSHE RK, participation in the development of research projects, publication of training manuals, and other scientific works. Scientific work should contain relevance, high theoretical level, practical significance and closely interconnected with the educational process, as well as investigative and judicial practice, the main purpose of which is to contribute to the development of legal science, improving legal culture, the fight against legal nihilism, as well as sustainable development of Kazakhstan society.

Strengths of the EP:

- Wide access to electronic resources for research activities. Encouragement

and creation of conditions on the part of the university management to carry out research activities of the teaching staff, as well as providing the opportunity to study in master's and doctoral programs and defend dissertation research in the Dissertation Council of «AlikhanBokeikhanUniversity»;

- Existence of an active research center «Actual problems of jurisprudence»;
- Access to specialized law enforcement databases, and the interconnection of trainees with practicing officers.

Analysis of the main problems:

- low level of publications in the publications included in the Scopus database; in the publications recommended by CCSES MSHE RK (in the state language, in English)

- absence of the regional training and methodological council (RUMC) of EP 6B04222 «Investigative and prosecutorial activity» is reflected in the research activities and in the educational process.

### **Orientation 3. Educational activities**

The priority task of EP 6B04222 «Investigative and Prosecutorial Activity» is to create conditions for self-realization of students and formation of their stable views and positions aimed at high legal culture, respect for honor and dignity of citizens. The University has approved the Concept of educational work «Alikhan Bokeikhan University», which is a scientifically substantiated set of views on the main goals, objectives, principles, content and directions of educational work.

The educational process of students of EP 6B04222 «Investigative and Prosecutorial Activity» is realized through the institute of mentoring, the Dean's office of the faculty, the teaching staff of the Department of Investigative and Prosecutorial Activity, as well as through the bodies of Student Self-Governance.

Student self-governance is an integral part of the whole university management system and implements the most important functions of student life organization. The activity of student self-governance in the university is organized in accordance with the internal university normative document «Regulations on the Youth Affairs Committee».

Educational work of EP 6B04222 «Investigative and Prosecutorial Activity» is closely interconnected with student self-government and is implemented through such public organizations as: creative group «Yrker», youth wing «Zhas Otan», «Alliance of Students «Alikhan Bokeikhan University», public foundation «Commonwealth of Young Lawyers», «KVN Union «Alikhan Bokeikhan University»; debate club «Everest», charity organization «Akniiyet», «Business Incubator» Parasattylyk mektebi.

The share of students of EP 6B04220 «Investigative and Prosecutorial Activity» involved in socially useful activities; from the total number 2023 - 67.5% of those who participated in the activities within the framework of the subprogram «Tarbiye zhane bilim» of the program «Rukhani zhangiru»: 2023 - 75%.

The University has created all conditions for modernization of mechanisms of organization of educational activity, within the framework of moral-psychological, cultural and health-improving development of students.

In order to provide social and legal support to students, the University has a

public foundation «Commonwealth of Young Lawyers». The Public Foundation «Commonwealth of Young Lawyers» realized a number of socially significant projects.

*Strengths:*

- Presence of a system of autonomous student self-governance
- Presence of the public fund «Commonwealth of Young Lawyers» which provides social and legal support to students.

*Analysis of the main problems:*

- Weak participation in the republican student winter and summer sports Olympiads, republican social and political events.

**Orientation 4: International activities**

The main criterion for the development of EP 6B04222 «Investigative and Prosecutorial Activity» is the annual expansion of participation in the field of international cooperation, which is aimed at the implementation of academic mobility programs to train students in foreign universities, the development of joint educational programs, as well as the use of international best practices in the field of education.

Within the framework of academic mobility programs, students of EP 6B04222 «Investigation and Prosecution» are polished and international and regional academic mobility will be implemented.

For the realization of international academic mobility of students in 2019, 11 agreements with leading universities of near and far abroad were concluded at the level of the university.

In order to improve international academic mobility EP 6B04222 «Investigative and Prosecutorial Activity» annually invites foreign scientists, specialists.

For the 2023/23 academic year EP 6B04222 «Investigative and Prosecutorial Activity» is planned reading lectures and conducting practical classes by scientists from the Republic of Belarus - Beloku State University - Minsk - Kalinin Sergey Arturovich; Republic of Uzbekistan - Tashkent State Law University - Babaev Jahongir.

*Strengths:*

- Regular invitation of foreign scientists, specialists to give lectures for students and faculty members

*Analysis of the main problems:*

- Insufficient command of English by teaching staff and students of non-language specialties;

- Insufficient funding for the development of academic mobility programs for students;

- Complex geopolitical situation in the world associated with various local wars.

**Orientation 5. Resource support**

EP 6B04222 «Investigative and Prosecutorial Activity» has sufficient material and technical, information and library resources used to organize the learning process. The availability and level of material and technical base is in the

process of constant updating and improvement. Creation of effective educational infrastructure is a necessary condition for the successful fulfillment of the University's mission.

In order to implement the educational program the following laboratories are functioning:

1) *Pre-trial Laboratory*

This laboratory was created to assist in the organizational and methodological support of classes using progressive and innovative teaching methods, creating conditions for conducting training sessions on special disciplines aimed at preparing students for practical activities requiring special knowledge, skills and abilities in the field of forensics.

2) *Crime laboratory.*

The main objective of the Forensic Laboratory is to train qualified specialists with profound theoretical knowledge and practical skills in the field of forensic science using progressive teaching methods and forensic techniques, computers and multimedia equipment.

3) *Courtroom training room* is designed to provide information and educational and methodological support for the educational process and is aimed at the formation of practical skills and abilities.

4) *The «School of Integrity» office* as the main objective provides for the purposeful training of young representatives of a new formation of the anti-corruption movement, formation of an anti-corruption model of behavior in the youth environment, and education of integrity and academic honesty at the university.

5) *Research Center «Actual Problems of Jurisprudence».* The Center carries out organizational and coordinating activities in the research direction of the university subdivision development on the basis of the prospective plan of research and development.

6) *«Criminalistic polygon» SU DP of the Abay region of the Ministry of Internal Affairs of the Republics.* The Center for forensic investigation was established on the basis of the Aezovsky EP of the Department of Internal Affairs of Semey city of the Abay region. The main activity of the center is retraining of young specialists - investigators of internal affairs bodies of the Republic of Kazakhstan, conducting practical training within the framework of dual education. The university library functions in the university, which provides teachers and students with the necessary information resources, basic and additional educational, educational and methodical literature for students of EP 6B04220 «Investigative and Prosecutorial Activity». Implementation of educational programs of higher and postgraduate education is provided by free access of students to library funds, computer technologies, educational, methodological and scientific literature, educational, scientific, information databases, including international sources, placed in electronic libraries. In the library of the university of students of OP 6B12330 «Law enforcement» placed 35 516 textbooks, teaching aids in electronic form. There is also access to the following electronic resources of the library «ELSEVIER», «SPRINGER LINK», «THOMSON REUTERS

(WebofScience)», «SCOPUS».

*Strengths:*

- Sufficient equipment of the appropriate material base for laboratory and research works.

*Analysis of the main problems.*

- development of teaching and methodical publications of teaching staff in the state language;

-Acquisition of published educational and methodical literature in English for the disciplines of the program.

### **3 Areas of the EP development plan, goal, objectives, expected results, target indicators, implementation measures**

Strategic directions of the development plan of EP 6B04222 «Investigation and Prosecution»:

Strategic Direction 1: Orientation of the educational process towards the continuity of professional training

Strategic direction 2. Research and innovation development of higher education institution: strategies and mechanisms of modernization in the conditions of modern socio-economic development of Kazakhstan

Strategic direction 3: Modernization of mechanisms of organization of educational activity within the framework of comprehensive development of a student

Strategic direction 4: Modernization and increasing the level of attractiveness of the university's international activities.

**Purpose of the educational program EP 6B04222 «Investigative and Prosecutorial Activity»:** formation of competitive specialists in the field of investigative and prosecutorial activity, applying theoretical knowledge and practical skills in the interests of protecting the rights and freedoms of the individual, the security of society and the state from criminal offenses, skillfully using and applying acquired knowledge in law enforcement activities.

#### **Objectives:**

**1.1 Improving the educational program.** Harmonization of the content of the educational program in accordance with similar programs of foreign partner universities, bringing the educational program in line with the requirements of the European and National Qualification Frameworks, involvement of social partners and employers in the development and implementation of educational programs.

**1.2 Financing of scientific infrastructure, creation of conditions for its development.** Creation of necessary conditions for the preservation of human resources potential of science, financing of research directions of faculty members. Financing of publications in rating editions.

**1.3 Improving the quality and impact of scientific research and its potential for commercialization.** Identification of development priorities and corresponding step-by-step measures to optimize the already existing infrastructure. The completeness and systemic nature of the complex ensures the integrity and functional flexibility of R&D capacity at the national level.

**1.4 Integration of EP into the international scientific space through mechanisms of internationalization of education and science** Increase of the main directions of cooperation of EP with foreign countries, strengthening of scientific ties with academies of sciences and other scientific organizations. Participation in scientific forums and work on joint research projects and grants.

#### **1.5 Development of mechanisms to support talented youth**

Identification of talented students through various competitions: for the best scientific reports, projects, scientific and practical research.

#### **Expected result:**

The main result of the educational program is the creation of conditions for

quality training and graduation of a lawyer with the following competencies:

**Expected results of the educational program:**

ON 1 Demonstrate general theoretical knowledge and understanding of law based on the most advanced knowledge;

ON 2 apply knowledge and understanding at a professional level to formulate arguments and solve investigative and prosecutorial problems;

ON 3 apply knowledge and understanding at a professional level to formulate arguments and solve problems in related areas of investigative and prosecutorial work

ON 4 demonstrate knowledge of the ideas of the modern rule of law to instill skills in entrepreneurship, leadership, and receptive innovation based on research with academic integrity, as well as ensuring safety standards.

ON 5 collect and interpret information to form judgments in the field of investigative and prosecutorial work, taking into account social, ethical and scientific considerations;

ON 6 apply theoretical and practical knowledge to solve practical and professional tasks in investigative and prosecutorial activities

ON 7 Analyze and systematize knowledge to acquire practical skills in pre-trial investigation of criminal cases necessary for independent continuation of further education

ON 8 Analyze and systematize knowledge to acquire practical skills in the field of prosecutor's supervision necessary for independent continuation of further education

ON 9 Know the methods of research and academic writing and apply them to the drafting of procedural documents

ON 10 Formulate arguments and solve problems of organizational and managerial nature in the sphere of professional activity

EN 11 apply knowledge and understanding of facts and the complex interactions between them to the investigation of crime

ON 12 Apply critical analysis and creative thinking techniques in pre-trial investigations and prosecutorial supervision

ON 13 Understand the importance of the principles and culture of academic integrity

In order to create special conditions for receiving education by persons with special educational needs, a special model of a graduate supplemented with professional competencies ensuring the adaptive nature of the basic educational program. For this purpose, the catalog of courses of the additional educational program «Minor» includes courses for the formation of the ability of persons with special educational needs to successful socialization in society and active adaptation in the labor market, taking into account the peculiarities of the disease.

### 3.1 Target indicators and measures for implementation

Target indicators	unit measurement	in the planning period					
		2021	2022	2023	2024	2025	2026
Interaction between the faculty of the department and the law enforcement and judicial system of the RK EP 6B04222 «Investigative and Prosecutorial Activity»	unit.	-	-	1	2	2	3
Increase in the employment rate of graduates	%	-	5	5	7	8	10
Low level of publications in the publications included in the Scopus database; in the publications recommended by CCSES MSHE RK (in the state language, in English)	unit.	-	-	1	1	2	3
Insufficient command of English by the teaching staff and students of non-language specialties.	%	1	1	2	1	3	5
Acquisition of published educational and methodical literature in English on EP disciplines.	%	-	-	1	1	2	5

Planning for the acquisition of English-language scientific literature on the EP			X	X	X	X

#### **4 Mechanisms of implementation of the EP development plan**

The development plan of EP 6B04222 «Investigative and Prosecutorial Activity» provides a comprehensive approach to the implementation of activities aimed at achieving the set goal through the solution of specific tasks formulated, contributes to the full implementation of planned activities.

Within the educational program 6B04222- «Investigative and Prosecutorial Activity» there is an academic council on the quality of legal education, which consists of: Chairman - PhD, senior lecturer of the GPA Department Nurekeshov Talap Kairatovich; Secretary - senior lecturer of the GPA Department Smagulova Akmaral Bakytkazyevna; Korganbaeva E.A. Deputy Dean for Academic Work; Saidullaev E.A. Deputy Dean for Educational Part; Kuzbaev D.J. acting head of the GPA Department; Ph, Ibragimova F.G., Head of the GPA Department; PhD, Sabitov S.M., Head of the UPD Department; Raiymbekov J.E., Senior Lecturer of the GPA Department; PhD, Baigundinov E.N., Senior Lecturer of the UPD Department; Head of the Department for supervision over the legality of operative-search, counterintelligence activity and non-secret investigative actions of the Prosecutor's Office of the region Abaisovetnik Justice Kaliaskarov M. T.; Head of the Investigative Department of the Prosecutor's Office of the region. T.;head of the Investigation Department of the Police Department of the region Abaypolkovnik of Police Adilbaev S.M.; Shynybaev E.K.chairman of the specialized administrative court of Semey city; PhD,Saimanova Sh.A.RGP on PHV «Institute of Parliamentarism»; PhDSaulen N. RGP on PHV «Institute of Parliamentarism»; Ph, Ostapovich I.Y.Y., Professor of Constitutional Law Department of V.F.Yakovlev UrGYU; Kosayev O.E., Chamber of Legal Consultants; Samashev J.K., Deputy Department of Justice of Abay region; Mukasheva N.K., Chairman of Specialized Interdistrict Administrative Court of Abay region; Abdikarimov N.B., Chairman of Semey City Court of Abay region; Ph, Kanatov A.K.Kanatov RGP on PHV «Institute of Parliamentarism»; Kambarov A.K doctoral student of 3 course; Zakharevich T. Master's student of the 2nd year; Kydyrmulla D.E. Student of the 3rd year.

#### **Monitoring, evaluation, control**

Monitoring of the Development Plan implementation is carried out by means of analysis and generalization of information on the fulfillment of development indicators by areas. Based on the results of monitoring, the management of the relevant EP prepares a conclusion on the implementation of the Development Plan.

The conclusion is drawn up in an arbitrary form and sent to the Dean of the Faculty and is the basis for the annual report of the Faculty within the framework of strategic indicators and results for the evaluation of the University Development Strategy as a whole. When drawing up the conclusion it is recommended to reflect the following information:

- 1) analysis and generalization of the information presented in the report on the implementation of the EP Development Plan;
- 2) the degree of achievement of the planned performance indicators (if there are deviations of actual results from the planned ones, the reasons and factors that

influenced the final results should be disclosed) and the activities undertaken/planned to achieve the key performance indicators;

3) in case of revision of individual goals, objectives, activities, reallocation of resources, development of new approaches to problem solving, include information on them;

4) to improve the efficiency of the implementation of the EP plan and proposals to adjust the development strategy;

5) the degree of influence of external stakeholders on the realization of EP goals and objectives.

## 5. Risk management

Name of possible risk	Possible consequences if risk management measures are not taken	Risk management activities
1	2	3
<b>Direction:</b>		
<b>External risks</b>		
Increased country and political risks	Decrease of international attractiveness of the country, region, university Decrease in the international image of the university. Decrease in the number of foreign partner universities Decrease in the number of invited foreign specialists. Decrease in the number of	Placement of information about the university, its license and accreditation on the university website. Also the rules of attracting foreign specialists, the rules of stay and study of foreign students in the university, Information about the material and technical base of the university and opportunities for social adaptation of foreign students.
Cardinal changes in the Strategic plans and program documents in the RK, changes in the regulatory documentation that governs the educational and research activities of HEIs	Disorganization of the educational process	Timely updating of internal regulatory documents and their implementation in the educational process
Unfavorable demographic situation in the region	Decrease in the total number of students	Strengthening career guidance work among school students, covering other regions of Kazakhstan and neighboring countries
Low educational level of school graduates	Low level of graduates' preparation for entering higher education institutions	Organization of preparatory courses for graduates, additional classes, joint work with schools in the region
Instability of incomes of the population, industrial enterprises, small and medium-sized businesses,	Redistribution of funds, lack of financial capacity to support the implementation of scientific projects	More active work with customers of educational services, changing the nomenclature of specialties and specializations taking into

which act as customers of qualified personnel		account the interests of personnel consumers
Insufficient volume of orders for R&D works from the enterprises of the region	Decrease in the level of commercialization of research work at the university	Expand the search for potential customers for research and development, expand the range of research are as offered by the university
Existence of barriers to the arrival of foreign citizens to study at the university	Indicators will not be achieved. Decrease in export of educational services.	Resolving issues through mutual agreements regulating the issues of education of foreign citizens at the university
<b>Internal risks</b>		
Inflationary processes that lead to a constant rise in the cost of material and technical information and library resources	Lack of financial resources to meet the targets set	Increasing the level of remuneration labor
Personnel outflow from the education and science system caused by the mismatch between the level of remuneration in the sector and the average wage level in the country	A sharp decline in professional opportunities and the threat of «insolvency» of education and science	Increasing the level of labor remuneration
Changes in the organization of the educational process due to state of emergency, quarantine measures due to threats of pandemic, epidemics, etc.	Indicators will not be achieved.emergence of social and psychological tension	Addressing issues through continuous development of innovative distance methodologies, management oriented towards providing and supporting the needs of learners and teaching staff

## **6. Financial support of the EP development plan**

Financial support for the implementation of the Development Plan EP 6B04222 «Investigative and Prosecutorial Activity» for 2021-2026 will be carried out from the university funds, as well as by attracting funds from the state and other sources of funding.

Capital and operating costs are assumed.
