3. Rules for the organization of the educational process on credit technology of education, approved by Order of the Minister of Education and Science of the Republic of Kazakhstan No. 152 dated April 20, 2011 (as amended by Order of the Ministry of Education and Science of the Republic of Kazakhstan No. 563 dated 12.10.2018);
4. Standard rules of activity of educational organizations implementing educational programs of higher and (or) postgraduate education, approved by the Order of the Ministry of Education and Science of the Republic of Kazakhstan No. 595 dated 30.10.2018;
5. Professional standard "Teacher", approved by the Order of the Chairman of the Board of the National Chamber of Entrepreneurs of the Republic of Kazakhstan "Atameken" No. 133 dated June 8, 2017.

II. Regulatory documents of the Educational institution "Alikhan Bokeikhan University"

1. MR. Revision No. 4 of 05.10.2022 "Structure of the modular educational program";
2. Item Revision No. 4 of 23.08.22 "Regulations on the research work of undergraduates".

The modular educational program (MEP) is developed as a set and sequence of training modules for the entire period of study and is aimed at mastering the competencies necessary to award the academic degree "Master of Law" under the educational program 7M04218 - "Actual problems of law". The DB block includes the disciplines of the university component (VC), which is 6 credits; and components of choice (CV), which is 4 credits. Modules of these disciplines allow you to form a complex of key (research), general and professional competencies acquired by a graduate.

The modular educational program (MEP) is developed as a set and sequence of training modules for the entire period of study and is aimed at mastering the competencies necessary to award the academic degree "Master of Law" under the educational program 7M04218 - "Actual problems of law". The DB block includes the disciplines of the university component (VC), which is 6 credits; and components of choice (CV), which is 4 credits. Modules of these disciplines allow you to form a complex of key (research), general and professional competencies acquired by a graduate.

ERWM - 13 credits; FSA – 12 credits.

In total, a master's student at the end of the MEP must master 60 credits (100%). In total, 6 modules were compiled for MEP.

To update OP 7M04218 "Actual problems of law" on March 15, 2019 at the Faculty of Law, a round table was held on the topic "Labor market: state and ways of effective interaction", which was attended by representatives of the Prosecutor's Office of the city of Semey, internal affairs bodies, judges of the city court, etc. At the end of the work, the participants of the round table adopted a resolution with a list of new disciplines for MNP that meet the requirements of the modern market. On the example of disciplines: "Theory and practice of the application of constitutional legislation", "Legal regulation of commercial

activities in the Republic of Kazakhstan and foreign countries", "Modern policy of combating crime."

Objects of professional activity for the qualification "Master of Law" under the educational program 7M04218 - "Actual problems of law" prepares qualified specialists who are ready to carry out scientifically grounded professional activities in jurisprudence to meet the staffing needs of law enforcement agencies, public authorities, judicial and law enforcement systems and organizations of all forms of ownership.

The goal of the EP "7M04218 - Actual problems of law" is coordinated with the university development strategy - the preparation of competitive highly qualified masters of law with a broad outlook and moral responsibility, capable of fulfilling and improving their scientific, pedagogical and production activities, personal development, ready to make decisions, combining interests of the individual, society and the state, which corresponds to the mission, goals of the university quality policy.

During the development of the modular educational program, the wishes and recommendations of social partners and potential employers were taken into account, aimed at the formation of additional professional competencies that meet the requirements of the labor market.

Recommended by the employers

1. The head of the UP G.Semey DP East Kazakhstan region Police Colonel Bazarov E.M.
2. Semey City Prosecutor Senior Adviser of Justice Aimukhan S.A.

ON 10 - to have skills (professional competence) the ability to prevent offenses, identify and eliminate the causes and conditions that contribute to their Commission, the ability to identify, assess and contribute to the suppression of corrupt behavior.

II. THE GRADUATE'S COMPETENCE MODEL

In the modern world, the key resource for the economic growth of countries is their intellectual and educational potential. In this regard, the system of training highly qualified personnel acquires strategic importance, turns into the main tool for ensuring the high competitiveness of the national economy.

The competitiveness of a modern worker is determined by his professional competence, broad social outlook, flexibility of behavior and a high level of individual activity. A developing society needs moral, enterprising people who can independently make decisions in a situation of choice, predicting their possible consequences, capable of cooperation, who are distinguished by mobility, dynamism, constructiveness, have a developed sense of responsibility for the fate of their country.

The competence-based approach is the most important methodological tool for bringing the educational system of Kazakhstan closer to foreign education systems within the framework of the Bologna process. At present, it is generally accepted that the comparability of educational levels and qualifications of graduates can be achieved by comparing the educational results and competencies they acquired during their studies..

The competence-based approach implies profound systemic transformations affecting the content, teaching, learning, assessment, links of higher education with other levels of vocational education, the introduction of the European system of transfer and accumulation of credits and the application of the European framework for higher education qualifications.

A graduate of the educational program 7M04218 - "Actual problems of law" is awarded the academic degree "Master of Legal Sciences" is the formation of undergraduates with a high level of professional culture, including the culture of professional communication, who have a civic position, capable of formulating and solving modern scientific and practical problems , teach at universities, successfully carry out research and management activities.
