

EDUCATIONAL INSTITUTION "ALIKHAN BOKEIKHAN UNIVERSITY"

Humanitarian Faculty
Department of Philology

PROGRAM GROUP
B017 - TRAINING OF TEACHERS OF RUSSIAN LANGUAGE AND LITERATURE
EDUCATIONAL PROGRAM 6B01732 "RUSSIAN LANGUAGE
AND LITERATURE IN SCHOOLS WITH NON-RUSSIAN LANGUAGE OF
TEACHING"

Form of education - full-time (on the basis of secondary school)

CATALOGUE OF
ELECTIVE DISCIPLINES

Year of admission - 2023

Semey, 2023

Reviewed and approved at a meeting of the educational and methodological council of the faculty
Minutes No. 5 of 23.05.2023

Approved at a meeting of the Educational and Methodological Council of the University
Protocol No.5 dated 25.05.2023

Awarded degree:
Bachelor of Education in Educational Program
6B01732 "Russian languages and literature in schools
with non-Russian language of instruction"

№ EC	Name of discipline	Num ber of credi ts (EC TS)	Prerequisites –	Postrequisite s	Brief description indicating the purpose of the study, summary and expected results of the study
BASIC DISCIPLINES					
Selectable Components (CV)					
1	Introduction to linguistics	5	Basic school course	Practical course of the Russian language Lexicology and phraseology of the modern Russian language Word formation and morphology of the modern Russian language, syntax of the modern Russian language	<p>Brief description: Introduction to the system of basic concepts of language and language terms, the formation of an understanding of the internal and external laws of the language, the relationship of language with society, thought, speech, culture, the structural, systemic, cognitive nature of the language and language skills, linguistic analysis.</p> <p>Expected results: know:</p> <ul style="list-style-type: none"> - basic theoretical provisions on the sections of the language (phonetics, lexicology, grammar), the systemic organization of the language and the types of relations in the language system; - questions of the theory of language (language and speech, language and society, language and thinking, language and culture); - classifications of languages of the world, the main typologically relevant parameters of the Russian language; connection of linguistics with other sciences; linguistic traditions in the history of linguistics; - modern linguistic disciplines and their problems, cognitive, social and symbolic nature of the language. <p>be able to:</p> <ul style="list-style-type: none"> - analyze and professionally interpret language facts of different language levels; - characterize languages and determine their place in different classifications; - apply theoretical information and linguistic terms in the analysis of

					<p>linguistic phenomena and facts;</p> <ul style="list-style-type: none"> - competently comment on examples representing a variety of linguistic phenomena; - describe the features of the Russian language in comparison with other Indo-European languages; - identify grammatical elements of various subsystems in the text; - characterize the main theoretical issues, as well as the external and internal laws of language development; - Summarize information, argue your own opinion and formulate specific conclusions. <p>own:</p> <ul style="list-style-type: none"> - the main terms and theoretical foundations of this course; - ways of describing the main sections of the Russian language, the skills of professional analysis of linguistic facts and phenomena, taking into account different approaches, - the skills of transcribing individual words and text, - skills of oral and written speech using basic linguistic terms, - skills of comparative analysis of linguistic facts, - skills of working with sources of scientific and educational information, with linguistic dictionaries. <p>Competencies: special: labor function (research, social and communicative)</p>
1	General linguistics	5	Basic school course	<p>Practical course of the Russian language, Lexicology and phraseology of the modern Russian language, Comparative grammar</p>	<p>Brief description: Introduces the main theories of linguistics, gives detailed information about the past history of linguistics, its current state, future tasks, solved and unsolved problems. Analyzes and explains new and emerging special methods and techniques used in the history of linguistics. Determines the place of linguistics in other social and technical sciences, their relationship with them. Introduces scientists and schools of linguistics who have contributed to the development of linguistics.</p> <p>Expected results:</p> <p>know:</p> <ul style="list-style-type: none"> - the subject and object of linguistics, the purpose and objectives of general linguistics;

				<ul style="list-style-type: none"> - the essence of the language as a sign system, the system and structure of the language, the main and intermediate tiers of the language, units of the main tiers; - the main typologically relevant parameters of the Russian language, the place of linguistics in other sciences, their relationship; - theoretical aspects of linguistics (language and society, language and thinking, language and speech, language and culture); - the history of linguistic doctrines (scientists and linguistic schools that have contributed to the development of linguistics), the directions of modern linguistics, their general provisions and problems (promising tasks, solved and unresolved linguistic problems); - basic terminological apparatus; - modern methods of linguistic research. <p>be able to:</p> <ul style="list-style-type: none"> - distinguish between the concepts of system and structure, - characterize syntagmatic and paradigmatic relations, basic units of the language, features of the main language tiers; - correlate language and speech; language and society; - competently use the conceptual apparatus; - describe the features of the Russian language against the background of the languages of the world as a whole, be aware of the variety of varieties of the language (literary norm, dialects, vernacular, colloquial speech), identify grammatical elements of various subsystems in the text; - apply methods of obtaining and processing information; - to summarize educational and scientific information, - compare the positions of scientists, justify your own opinion and formulate conclusions. <p>own:</p> <ul style="list-style-type: none"> - modern scientific methods of language analysis and ways of describing phonetics, morphology, syntax, lexicology of the Russian language,
--	--	--	--	--

					<p>pragmatics of the use of language tools;</p> <ul style="list-style-type: none"> - the skills of analyzing linguistic facts, taking into account different approaches, - skills of oral and written speech using linguistic terms, - work skills with educational, scientific and reference literature. <p>Competencies: special: labor function (research, social and communicative)</p>
2	Phonetics of the modern Russian language	5	Basic school course	<p>Practical course of the Russian language Lexicology and phraseology of the modern Russian language</p>	<p>Brief description: The discipline is aimed at familiarizing students-philologists with the basic units of the phonetic level of the Russian language, the most important concepts, the scientific provisions of phonetics and phonology, the characteristics of general patterns and specific features, leading modern ideas and conclusions; developing students' ability to professionally analyze units of the phonetic level; preparing students for a conscious, philological knowledge of the language as a subject of study and teaching, as well as for independent research work; to teach, by studying and mastering the phonetic system of the Russian language, by students to influence the formation of their Russian type of linguistic thinking and their linguistic competence (sense of language).</p> <p>Expected results:</p> <p>know:</p> <ul style="list-style-type: none"> - the main provisions of the phonetics of the modern Russian language; linguistic terminology; - classification of vowels and consonants ; - processes occurring in the flow of speech; - distinctive features of the phoneme, its properties, history of study; - orthoepic and orthographic norms; - historical processes in the phonetic system of the Russian language. <p>be able to:</p> <ul style="list-style-type: none"> - analyze phonetic units; - find and analyze various processes occurring in the speech stream; - produce phonetic articulation of speech and transcribe the text;

				<ul style="list-style-type: none"> - characterize the sounds of the Russian language; - competently apply terms and other theoretical information in the analysis of various sound phenomena; - professionally comment on the phonetic processes of the modern Russian language; - correlate the positions of scientists and give a linguistic interpretation to the phenomena of phonetics. <p>own:</p> <ul style="list-style-type: none"> - the main terms and theoretical foundations of this course; - modern scientific methods of language analysis and ways of describing phonetics; - skills in the analysis of phonetic units and processes; - skills of qualified use of linguistic terms; transcription of the text; - professional analysis of phonetic level units; - the skills of philological language proficiency as a subject of study and teaching; - skills of independent research work; - Skills in working with linguistic dictionaries. <p>Competencies: special: labor function (research, social and communicative)</p>
2	Russian dialectology	5	Introduction to linguistics General linguistics	<p>Lexicology and phraseology of the modern Russian language</p> <p>Practical Russian language course</p> <p>Historical grammar of the Russian language</p> <p>Brief description: The discipline "Russian dialectology" is aimed at mastering the theoretical foundations of Russian dialectology; determination of the main features of dialects as a variety of the Russian national language; definition of fundamentally different norms of the literary language and dialect.</p> <p>Expected results:</p> <p>To know:</p> <ul style="list-style-type: none"> - basic concepts and terms of linguistics in the field of dialectology; - linguistic features of dialects at different levels of the language system. - the main linguistic features of dialects; - norms of the modern Russian literary language. <p>be able to:</p> <ul style="list-style-type: none"> - correctly operate with basic linguistic terms and concepts; - select the language material necessary to

				<p>History of the Russian literary language</p>	<p>confirm theoretical positions.</p> <ul style="list-style-type: none"> - to determine the belonging of a linguistic unit to the literary, dialect or vernacular sphere of the Russian national language; - demonstrate knowledge and understanding of the language as a historical phenomenon, comment on the facts of the modern Russian language from the perspective of a diachronic approach; <p>own:</p> <ul style="list-style-type: none"> - skills of linguistic analysis and comparison of facts of various forms of existence of the Russian national language; -skills of working with dialect texts and dialect dictionaries; - skills of analyzing dialect text.
3	Introduction to Literary Studies	5	school course	<p>Russian literature of the 19th century (1st half, 2nd half), History</p>	<p>Short description: In the process of getting acquainted with the discipline, the artistic features of literature, the work of art as a whole, versification, the problems of the unity of the theme and idea, composition and plot, the language of the work, the basics of poetry are studied. The place of literary criticism in the system of other scientific disciplines, the connection between literature and aesthetics, the concept of the art of the word, the stages of the formation and development of literary</p> <p>To know:</p> <ul style="list-style-type: none"> - specific features of literature as one of the most important leaving culture and art of the word; - the aesthetic, socio-historical nature of literature; - the main laws of the literary process; - features of the creative process as a result of the activity of a particular person; - generic and genre differentiation of works of art of the word; - basic literary terms and concepts; -elements of the content and content form of literary texts; <p>Be able to:</p> <ul style="list-style-type: none"> - to search and select the information necessary to solve a specific cognitive task; - analyze a literary work as an artistic and aesthetic phenomenon; - to operate with knowledge about the

				<p>poetics of a work, genre, kind;</p> <ul style="list-style-type: none"> - to consider a literary work in the aspect of kind and genre; - analyze a literary text in a biographical, historical, literary context; - use the terminological apparatus for the description, analysis and interpretation of a literary text; - distinguish between the main systems of versification and determine the rhythmic pattern of the verse; - select information resources to support the educational process; -engage in joint activities with members of your group; -organize subgroups of students of their group to master their experience of interaction in solving the proposed educational tasks; <p>Possess:</p> <ul style="list-style-type: none"> – a system of knowledge of a theoretical and literary nature that can be used to solve educational problems in the relevant professional field; –methods of literary analysis and interpretation of literary texts of various genres; – professional basics of speech communication; - pedagogical communication skills aimed at creating a favorable psychological climate. <p>Competencies: special.</p>
3	Introduction to Literary Studies	5	school course	<p>Russian literature of the 19th century (1st half, 2nd half), History of Russian literature Russian literature of the 20th century (1st</p> <p>Short description: In the process of getting acquainted with the discipline, the artistic features of literature, the work of art as a whole, versification, the problems of the unity of the theme and idea, composition and plot, the language of the work, the basics of poetry are studied. The place of literary criticism in the system of other scientific disciplines, the connection between literature and aesthetics, the concept of the art of the word, the stages of the formation and development of literary criticism, literary and aesthetic thought, the history of the development of fiction, the artistic image, types and ways of its creation are also studied.</p> <p>Expected results: Know:</p>

			<p>half, 2nd half),</p>	<ul style="list-style-type: none"> - specific features of literature as one of the important components of the culture and art of the word; - aesthetic, socio-historical nature of literature; - the main regularities of the literary process; - features of the creative process as a result of the activity of a particular person; - generic and genre differentiation of works of art of the word; - basic literary terms and concepts; - elements of the content and meaningful form of literary texts; <p>Be able to:</p> <ul style="list-style-type: none"> - search and select information necessary to solve a specific cognitive task; - to analyze a literary work as an artistic and aesthetic phenomenon; - operate with knowledge about the poetics of a work, genre, genre; - consider a literary work in terms of gender and genre; - analyze a literary text in a biographical, historical, literary context; - use the terminological apparatus for describing, analyzing and interpreting a literary text; - distinguish the main systems of versification and determine the rhythmic pattern of the verse; - select information resources to accompany the educational process; - engage in joint activities with members of their group; - organize subgroups of students of their group to master the experience of interaction in solving the proposed educational tasks; <p>Own:</p> <ul style="list-style-type: none"> - a system of knowledge of a theoretical and literary nature, which can be used to solve educational problems in the relevant professional field; - methods of literary analysis and interpretation of literary texts of various genres; - professional basics of speech communication; - pedagogical communication skills
