3. List of modules studied disciplines

Summary of the sections of the MEP

1. Explanatory note

The modular educational program (MEP) is compiled in accordance with the State Standard of Higher and Postgraduate Education, approved by Order № 2 of the Minister of Science and Higher Education of the Republic of Kazakhstan dated July 20, 2022; Rules for organizing the educational process on credit technology of education, approved by Order № 152 of the Minister of Education and Science of the Republic of Kazakhstan dated April 20, 2011; Model Rules activities of organizations of higher and (or) postgraduate education, approved by the Order of the Minister of Education and Science of the Republic of Kazakhstan dated October 30, 2018 № 595.

The modular educational program (MEP) is designed as a set and sequence of training modules for the entire period of study and is aimed at mastering the competencies necessary for awarding the degree «Bachelor of Laws» according to the educational program 6B04222 «Investigative and prosecutorial activities». The OOD block includes disciplines for all educational programs (56 credits in total), during the study of which the graduate must master the competence of general education.

The DB block includes disciplines of the university component (VC), which is 41 credits and elective components (CV), which is 71 credits. Modules of these disciplines allow you to form a complex of system-forming competencies acquired by a graduate.

The PD block includes the disciplines of the university component (VC), which is 27 credits and the elective component (CV), which is 37 credits. Modules of these disciplines allow you to form a complex of special competencies acquired by a graduate.

Theoretical training - 232 credits, IA - 8 credits. In total, a student at the end of the MOS must master 240 credits. In total, the MOS contains 20 modules.

The following social partners took part in the development of the modular educational program: R.K. Hamidullin - Deputy Prosecutor of Semey city, Abay region; L.K. Dosmailova - Senior Assistant Prosecutor, Prosecutor's Office of Abay region, Junior Justice Adviser; S.M. Adilbekov - Head of the SU DP of Abay Region of the Ministry of Internal Affairs of the Republic of Kazakhstan, police Colonel; Z.T. Kyzdanaeva – Senior investigator of the SU DP of the Abai region of the Ministry of Internal Affairs of the Republic of Kazakhstan, police Lieutenant colonel; Adilkhanova G.O. – Deputy Director for Forensic Medical Issues of the Institute of Forensic Examinations in the Abai region of the Ministry of Internal Affairs of the Republic of Kazakhstan.

The purpose of the educational program: Training of a specialist with professional competencies in the field of investigative and prosecutorial activities

Expected results of the educational program:

ON 1 Demonstrate general theoretical knowledge and understanding in the field of law based on the most advanced knowledge

ON 2 apply knowledge and understanding at a professional level to formulate arguments and solve problems of investigative and prosecutorial activity

ON 3 apply knowledge and understanding at a professional level to formulate arguments and solve problems in related areas of investigative and prosecutorial activity

ON 4 Demonstrate knowledge of the idea of a modern law state to instill entrepreneurial skills, leadership qualities, receptivity to innovation based on scientific research with integrity, as well as ensuring safety standards.

ON 5 to collect and interpret information for the formation of judgments in the field of investigative and prosecutorial activities, taking into account social, ethical and scientific considerations;

ON 6 apply theoretical and practical knowledge to solve educational, practical and professional tasks in investigative and prosecutorial activities

ON 7 Analyze and systematize knowledge for acquiring practical skills in the field of pre-trial investigation of criminal cases necessary for independent continuation of further training

ON 8 Analyze and systematize knowledge for the acquisition of practical skills in the field of prosecutorial supervision necessary for independent

continuation of further education

ON 9 To know the methods of scientific research and academic writing and apply them when drafting procedural documents

ON 10 Formulate arguments and solve organizational and managerial problems in the field of professional activity

ON 11 Apply knowledge and understanding of facts and complex interactions between them in the field of crime investigation

ON 12 Apply methods of critical analysis and creative thinking in the course of pre-trial investigation and prosecutorial supervision

ON 13 Understand the importance of the principles and culture of academic integrity

To create special conditions for people with special educational needs to receive education, there is a special graduate model supplemented with professional competencies that ensure the adaptive nature of the main educational program. For this purpose, courses for the formation of the ability of persons with special educational needs to successfully socialize in society and actively adapt to the labor market, taking into account the characteristics of the disease, are introduced into the catalog of courses of the additional educational program «Minor»

2. The graduate's competence model

Modern professional legal education is aimed at training highly educated competitive creative specialists capable of solving tasks aimed at building a fair civil society in the Republic of Kazakhstan and forming a mobile highly educated competent graduate.

The professional aptitude of a graduate is determined by a highly intellectual, general cultural level of development ready for activity and professional growth, possessing social and professional mobility, free to adapt in changing socio-economic conditions.

The competence of the graduate is formed taking into account the needs and satisfaction of the labor market.

The graduate is awarded the academic degree «Bachelor of Law» according to the educational program 6B04222 «Investigative and prosecutorial activity»

In order to realize their competitiveness and competence, a student under the educational program 6B04222 «Investigative and prosecutorial activity» receives at the educational institution «Alikhan Bokeikhan University»:

- a) the necessary amount of theoretical and legal knowledge for the formation of a personality and his professional suitability;
- b) applied skills in the application of theoretical knowledge in law enforcement;
- c) taking into account the needs of potential employers, students are given the opportunity to apply the knowledge, skills and abilities acquired during educational, industrial and pre-graduate practices, laboratory work, independent research, in practical activities.

All these separate elements of educational outcomes together constitute «competence».

Competence is the ability of a graduate to skillfully apply acquired knowledge, skills, and personal qualities in professional activities.

Students of the educational program 6B04222 «Investigative and prosecutorial activities» carry out their professional, analytical, consulting activities in the field of law enforcement and the judicial system.
