5. Approved through working curriculum of the modular educational program for the entire period of study.

### Summary of sections of the MOP

#### **1. Explanatory note**

The modular educational program (MEP) was compiled in accordance with the State Educational Standard, approved by the order of the Ministry of Education and Science of the Republic of Kazakhstan dated October 31, 2018 No. 604, also on the basis of the regulation «On the formation of the student learning path», p.01.04.2012. The structure of the modular educational program from 17.01.2014

MEP is designed as a set and sequence of training modules for the entire period of study and is aimed at mastering the competencies necessary for awarding the academic degree of Bachelor of Public Security, according to the educational program 6B04222 – «Investigative and Prosecutorial Activities» 56 credits), in the study of which the graduate must master the key competencies of general education and socio-ethical.

The DB block includes disciplines of the university component (VC), which is 37 credits; and components of choice (EC), which is 75 credits. The modules of these disciplines make it possible to form a set of key (systematizing and socio-ethical) and special competencies acquired by the graduate.

The PD block includes disciplines of the university component (VC), which is 23 credits; and an elective component (EC), which is 37 credits. The modules of these disciplines make it possible to form a set of key and special (production and management and research) competencies acquired by the graduate. In total, a student at the end of the MEP must master 240 credits.

**The purpose of the training is:** Training of a specialist with professional competencies in the field of investigative and prosecutorial activities.

The educational mission under the educational program 6B04222 «Investigative and prosecutorial activities» is to train competitive personnel of higher and postgraduate education in a wide range of areas, focused on the accelerated industrial and innovative development of the region. The vision is to meet the changing needs and expectations of society and all stakeholders.

When developing a modular educational program, the wishes and recommendations of the following employers were taken into account: the Prosecutor's Office of the city of Semey of the Prosecutor's Office of the East Kazakhstan Region of the Republic of Kazakhstan, the UP of the city of Semey, the DP of the East Kazakhstan Region of the Republic of Kazakhstan, the city courts No. , 156/15, 156/16 KUIS DP EKR RK, research and production laboratory of forensic examination in Semey, EKR MJ RK, transport prosecutor's office in Semey of the Chief Transport Prosecutor's Office of the RK, military court of the Semey garrison of the Regional Command «Vostok» EKR RK, military prosecutor's office Regional command «East» of the East Kazakhstan region, the Presidium of the bar association of the East Kazakhstan region.

**The field of activity of the graduate in the educational program 6B04222 «Investigative and prosecutorial activities»:** - Bodies of the Prosecutor's Office of the Republic of Kazakhstan,

- Bodies of internal affairs of the Republic of Kazakhstan (bodies of preliminary investigation, inquiry),
- Anti-Corruption Service and Economic Investigation Service
- Penitentiary system of the Republic of Kazakhstan

### **The graduate's competence model**

In modern conditions, the key resource for the country's economic growth is the intellectual and educational potential. In this regard, the system of training highly qualified personnel is of great importance in ensuring high competitiveness.

The competitiveness of a specialist is determined by his professional competence, broad social outlook, flexibility of behavior and a high level of individual activity.

The competence-based approach in higher professional education opens up wide opportunities for better training of specialists for real life.

The competence of a graduate is formed taking into account the needs and satisfaction of the labor market.

In modern conditions of the labor market, there is an increasing need for competent lawyers, as well as civil servants with a multilingual direction. There is a growing demand for practical skills and qualifications focused on entrepreneurial activity. Graduate of the educational program 6B04222 «Investigative and prosecutorial activities» academic degree «Bachelor of Law» in the educational program 6B04222 «Investigative and prosecutorial activities».

In order to exercise their competitiveness and competence, a student in the educational program 6B04222 «Investigative and prosecutorial activities» receives at the «Alikhan Bokeikhan University» Educational Institution:

- a) a certain required amount of basic (theoretical) knowledge;
- b) a set of methodologies and techniques for applying this knowledge in practice;
- c) a certain experience of such application (in the course of educational, production and undergraduate practice, laboratory work, independent research, etc.).

All these separate elements of educational outcomes together constitute a «**competence**».

Competence is a complex characteristic of a graduate's readiness to apply knowledge, skills and personal qualities in standard and changing situations of professional activity.

A graduate of the educational program 6B04222 «Investigative and prosecutorial activities» is able to conduct professional, analytical, consulting activities in law enforcement agencies.

Bachelors in the educational program 6B04222 «Investigative and prosecutorial activities» are engaged in the study of legal issues and problems of a theoretical and practical nature, as well as the development of recommendations for reforming the regulatory framework. Bachelors of this profile should analyze individual legal acts, contribute to strengthening the quality indicators of legal services provided. Classification of competencies according to the educational program 6B04222 «Investigative and prosecutorial activity»:

#### ***Learning outcomes:***

- ON 1 Demonstrate general theoretical knowledge and understanding in the field of law based on the most advanced knowledge
