1. Explanatory note
2. Competence model of the graduate
3. List of modules included in the MEP, with their brief characteristics

1. EXPLANATORY NOTE

The Modular Educational Program (MEP) was developed by:

- on the basis of the State Standard of Higher and Postgraduate Education, approved by the Order of the Minister of Science and Higher Education of the Republic of Kazakhstan dated July 20, 2022 No. 2;
- in accordance with the Rules for organizing the educational process on credit technology of education, approved by order of the Minister of Education and Science of the Republic of Kazakhstan dated April 20, 2011 No. 152;
- in accordance with the Model rules for the activities of organizations of higher and (or) postgraduate education, approved by order of the Minister of Education and Science of the Republic of Kazakhstan dated October 30, 2018 No. 595;
- in accordance with the Professional standard "Teacher", approved by the Deputy Chairman of the Board of the National Chamber of Entrepreneurs of the Republic of Kazakhstan "Atameken" dated June 8, 2017. No. 133;
- in accordance with the approved structure of the MEP (edition No. 4 of 05.10.2022);
- taking into account the recommendations of employers.

The modular educational program is developed as a set of sequential training modules for the entire period of study and is aimed at mastering the competencies necessary for the assignment of an academic bachelor's degree in the Educational program 6B01708 “English with additional learning of a second foreign language”.

The modules of the block of general education disciplines (GED) (56 credits in total, of which CC (compulsory component) - 51 credits, CCh (components by choice) - 5 credits) include disciplines common to all educational programmes, in the study of which the graduate must master the following competencies: knowledge of the laws of the development of society and its socio-political, legal foundations, as well as cultural and historical values, the basics of informatics, linguistic communication and understanding of the principles of a healthy lifestyle, knowledge of the political life of the country.

The block of basic disciplines (BD) (112 credits in total) includes disciplines of the university component (UC - 48 credits) and components by choice (CCh - 64 credits). The modules of these disciplines form a complex of competencies: the formation of basic and professional qualities, covering deep scientific, theoretical and methodological knowledge, practical skills in theoretical and industrial sciences in the field of education.

The block of profiling disciplines (PD) (60 credits in total) includes the disciplines of the university component (UK - 15 credits) and components by choice (CCh - 45 credits). The modules of these disciplines make it possible to form a complex of key and special competencies acquired by a graduate: the formation of professional qualities, including theoretical and empirical knowledge, as well as skills for practical actions, the ability to analyze and solve pedagogical problems of a theoretical and practical nature in the field of education and upbringing.

The criterion for the completion of the educational process is the development of at least 240 credits by the student, of which 228 credits are theoretical training and 12 are final certification.

The modular educational program consists of 24 modules.

Social partners took part in the discussion of the Modular Educational Program: Malgazhdarova Zh.Z. - Director of "Secondary School No. 37", Nurgabiyeva G. - English teacher of "Secondary School No. 37", Uysingazina A.A. - Director of "Secondary School No. 17", Abylkasimov K.A. - Director of "Secondary School No. 39 named after Alikhan Bokeykhan", Kakenov A.T. - teacher of the Kazakh language "NIS Semey", etc.

Aim of EP - training of competitive specialists - teachers of foreign languages who have fundamental knowledge, skills and competencies necessary in professional activities, and who speak foreign languages at a level recognized by the international community and meeting the needs of the society of the Republic of Kazakhstan.

Expected results of the educational program:

ON1: To plan, design and conduct training lessons in foreign languages, integrating knowledge from various subject areas in solving pedagogical problems; to develop teaching materials on foreign language, using traditional, innovative, information and communication educational technologies and methods, as well as new achievements in the field of psychological and pedagogical sciences.

ON2: To form and develop the linguistic, communicative, informational, professional competencies of students, to organize foreign language communication in the lesson, using creative, interactive and other forms of work with students.

ON3: To collect and interpret information for the formation of judgments, taking into account social, ethical and scientific considerations; to model the educational process and build a favorable educational environment, using the results of diagnosing the individual and age characteristics of students, their development by means of a subject through the use of critical thinking technologies; identify needs and difficulties in teaching foreign languages.

ON4: To master basic and second foreign languages; skills of constructive dialogue, communication in a multicultural, multi-ethnic and multi-confessional society.

ON5: To comply with business ethics and socio-ethical values, find compromises when working in a team and adequately navigate in various social situations; based on the forms and methods of cooperation in the professional community and interaction with various social groups, initiate innovative ideas uniting education stakeholders and involve them in the educational process.

ON6: To carry out communication in foreign languages in compliance with the correct design of speech in accordance with the phonetic, grammatical, lexical norms of the language.

ON7: To navigate in the historical, national, cultural, regional, linguistic contexts of the studied linguistic phenomena; to carry out a comparative analysis of the native and studied languages; apply knowledge and understanding of facts, phenomena, theories and complex dependencies between them in the studied area; to analyze theoretical concepts and factual data, carry out comparisons, generalizations, draw conclusions on their basis; to creatively use theoretical positions and practical knowledge to solve educational and practical and professional problems in the studied area.

ON8: To know the methods of scientific research and apply them in the studied area; to implement the skills and abilities of foreign language communication in the context of business and professional communication, as well as in the framework of academic discourse and in the field of scientific research and educational process, necessary for the independent continuation of further education in the studied area; understand the importance of the principles and culture of academic integrity.

ON9: To systematize, generalize legal and economic information for using in professional, including business, activities: to analyze, generalize economic information and systematize safety standards for use in professional activities.

To create special conditions for people with special educational needs to receive education, the competence model of a graduate is complemented by professional competencies that ensure the adaptive nature of the main educational program. To this end, the catalog of courses of the additional educational program "Minor" includes courses for the formation of people with special educational needs of the ability to successfully socialize in society and actively adapt to the labor market, taking into account the characteristics of the disease.

2. COMPETENCE MODEL OF THE GRADUATE

I. COMPETENCES OF GENERAL EDUCATION

- aimed at forming the worldview, civil and moral positions of the future specialist, competitive on the basis of knowledge of information and communication technologies, building communication programs in Kazakh, Russian and foreign languages, focusing on a healthy lifestyle, self-improvement and professional success;
- form a system of general competencies that ensure the socio-cultural development of the personality of a future specialist on the basis of the formation of his worldview, civic and moral positions;
- develop abilities for interpersonal social and professional communication in Kazakh, Russian and foreign languages;
- contribute to the development of information literacy through the mastery and use of modern information and communication technologies in all areas of their lives and activities;
- form the skills of self-development and education throughout life;
- form a personality capable of mobility in the modern world, critical thinking and physical self-improvement;
- evaluate the surrounding reality on the basis of worldview positions formed by knowledge of the foundations of philosophy, which provide scientific understanding and study of the natural and social world by methods of scientific and philosophical knowledge, reveal the meaning of the content and specific features of the mythological-religious and scientific worldview;
- to show a civil position on the basis of a deep understanding and scientific analysis of the main stages, patterns, originality of the historical development of Kazakhstan, to use methods, techniques of historical description to analyze the causes and consequences of events in the history of Kazakhstan;
- evaluate situations in various areas of interpersonal, social and professional communication, taking into account the basic knowledge of sociology, political science, cultural studies, psychology, arguing one's own assessment of everything that happens in the social and industrial spheres, as well as synthesizing knowledge of these sciences as a modern product of integrative processes;
- use scientific methods, methods of research of a particular science, as well as the entire socio-political cluster, to choose a methodology, analysis and generalize the results of the study;
- develop their own moral and civic position on the basis of public, business, cultural, legal and ethical norms of Kazakhstani society;
- apply in practice knowledge in the field of social and humanitarian sciences, which has world recognition, synthesize new knowledge and present it in the form of humanitarian socially significant products;
- engage in communication in oral and written forms in Kazakh, Russian and foreign languages, using language and speech means based on grammatical knowledge to solve problems of interpersonal, intercultural and industrial (professional) communication, as well as analyze information, actions and deeds of communication participants in accordance with the situation of communication;
- use various types of information and communication technologies in personal activities: Internet resources, cloud and mobile services for searching, storing, processing, protecting and disseminating information;
- build a personal educational trajectory throughout life for self-development and career growth, focus on a healthy lifestyle to ensure full-fledged social and professional activities through the methods and means of physical culture;

- know and understand the basic laws of the history of Kazakhstan, the foundations of philosophical, socio-political, economic and legal knowledge, communication in oral and written forms in Kazakh, Russian and foreign languages;
- apply the acquired knowledge for effective socialization and adaptation in changing socio-cultural conditions, master the skills of quantitative and qualitative analysis of social phenomena, processes and problems.

II. GENERAL PROFESSIONAL COMPETENCES

1) Labor function: teaching

Upon graduation, the graduate is able to:

- Plan, design and conduct training sessions in a foreign language, using didactic knowledge in integration with knowledge in the specialized field; traditional, innovative, interactive technologies; new achievements in the field of psychological and pedagogical sciences.
- Develop current educational and organizational documentation (didactic, control and measuring materials, etc.), have organizational skills, show high executive discipline.
- Having a system of subject, psychological, pedagogical and methodological knowledge, to realize professional activity, to be able to generate new pedagogical ideas, to critical thinking.
- To form and develop the linguistic, communicative, informational, professional competencies of students, using the competence-based approach in teaching foreign languages.

To do this, the graduate must have:

Skills and abilities:

- designs teaching classes in a foreign language, taking into account the linguistic needs and requests of students;
- develop current educational and organizational documentation (didactic, control and measuring materials, etc.), have organizational skills, show high executive discipline;
- uses innovative teaching technologies, incl. ICT, critical thinking technologies;
- conducts standard training sessions on foreign language, using didactic knowledge in integration with knowledge in a special area;
- plans training sessions on foreign language, taking into account the principles of integration and continuity of teaching at all levels of secondary education;
- finds non-standard and alternative solutions, be able to generate new pedagogical ideas, to think critically.

Knowledge:

- new achievements in the field of psychological and pedagogical sciences;
- traditional technologies and didactic means, including ICT;
- features of the psychology of adolescent children;
- pedagogical technologies of differentiated and integrated learning, developmental learning, features and specifics of the competence-based approach in teaching a foreign language;

- modern methodological interpretation of the main categories of the system of foreign language education: approaches, goals, content, principles, methods, means of teaching a foreign language;
- methods of development of language competences of students;
- principles and methods of formation of communicative, informational, professional competencies of students;
- pedagogical goal-setting methods for designing new models and strategies of the educational process.

2) **Labor function: educational**

Upon graduation, the graduate is able to:

- Build the educational process, observing the pedagogical tact, showing respect for the personality of students and adherence to the system of universal and national values in their unity, as well as to resist any types of discrimination and extremism.
- To develop a favorable educational environment for the realization of the cultural and linguistic needs of students; to form a tolerant attitude of students to a different culture, to a different way of life.

To do this, the graduate must have:

Skills and abilities:

- observes pedagogical tact, the rules of pedagogical ethics;
- shows respect for the personality of students;
- adheres to a democratic style in relations with students;
- shows adherence to the highest social values, to the ideas of humanistic pedagogy;
- shows adherence to the system of universal and national values in their unity;
- builds the educational process taking into account the national priorities of Kazakhstan;
- shows the ability to resist any kind of discrimination, extremism;
- develops cultural awareness, language competence;
- contributes to the development of a favorable educational environment for the realization of the cultural and linguistic needs of students;
- forms a tolerant attitude to a different culture, to a different way of life.

Knowledge:

- school pedagogy;
- educational psychology;
- innovative technologies for the education of school and adolescent children;
- educational potential of academic subjects;
- principles of integrating the content of education with the national values of Independent Kazakhstan
- ways to form students' positive self-esteem, motivation for learning languages, civic identity and linguistic tolerance.

3) **Labor function: social and communicative**

Upon graduation, the graduate is able to:

- Based on the forms and methods of cooperation in the professional community and interaction with various social groups, initiate innovative ideas that unite education stakeholders and involve them in the educational process.
- Be fluent in Kazakh, Russian, foreign languages; skills of constructive dialogue, communication in a multicultural, multi-ethnic and multi-confessional society; communication skills as readiness and ability to carry out communicative acts.
- Integrate knowledge from various subject areas in solving pedagogical problems.

To do this, the graduate must have:

Skills and abilities:

- involves students in the system of additional education;
- initiates innovative ideas that unite the stakeholders of education (various creative associations, associations, etc.);
- independently involves representatives of professional communities, law enforcement agencies, medical, social services, children's and youth movements, youth associations, public and political parties, non-governmental organizations, etc. in the educational process.
- speaks Kazakh, Russian and foreign languages;
- communication skills in native and foreign languages in compliance with the correct formulation of speech in accordance with the phonetic, grammatical and lexical norms of the language being studied;
- Speech communication skills in foreign languages in educational and professional activities;
- skills of constructive dialogue, communication in a multicultural, multi-ethnic and multi-confessional society;
- integrate knowledge from various subject areas in solving pedagogical problems, be capable of social and pedagogical cooperation.

Knowledge:

- bases of psychology of communication and professional communication;
- forms, methods of cooperation in the professional community, incl. online community;
- forms and methods of interaction with various social groups (external stakeholders of education);
- bases of professional leadership;
- communication technologies, communication strategies;
- the basics of oral and written communication within the studied subject, in accordance with the scope and situation of communication;
- lexical material of the studied subjects of disciplines;
- phonetic, grammatical, lexical norms of Kazakh, Russian, foreign languages;
- types of communication: verbal, non-verbal in terms of intercultural communication.

III. SPECIAL COMPETENCES

1) Labor function: methodical

Upon graduation, the graduate is able to:

- Develop teaching materials for foreign language in accordance with the specified objectives of the classes, instructions and requirements, defining methods and techniques, forming the language and speech skills of students in foreign language.
- Organize foreign language communication in the classroom, using creative, interactive and other forms of work with students.
- Strive for professional and personal growth, observing the norms of business ethics and social and ethical values, find compromises when working in a team and adequately navigate in various social situations.
- Plan, design and conduct training sessions in a foreign language.

To do this, the graduate must have:

Skills and abilities:

- plans to improve their qualifications;
- determines the methods and techniques, forms the language and speech skills of students in foreign language;
- develops teaching materials for foreign language in accordance with the set objectives of the classes and in accordance with the instructions and requirements;
- creates a favorable environment for learning students;
- uses modern information, cognitive-interactive and innovative educational technologies and methods in the process of pedagogical activity;
- possesses the skills of organizing foreign language communication in the classroom using creative, interactive and other forms of work with students;
- determine the effectiveness of a particular educational technology or method to achieve the educational task;
- creatively uses advanced pedagogical technologies and looks for ways to improve them in order to achieve a certain level of foreign language proficiency among students in primary, secondary, specialized and specialized schools;
- possesses the skills of organizing the educational process for mastering a foreign language for children with disabilities in conditions of inclusive education;
- owns the skills of designing classes using critical thinking technologies.

Knowledge:

- methods of self-determination for the development of additional knowledge;
- ways to implement individual professional development plans;
- principles and methods of formation of communicative, informational, professional competencies of students;
- principles and methods of constructing situational pedagogical tasks;
- principles and methods for developing educational and program documentation;

- normative and legal documents in the field of education;
- modern information, cognitive-interactive, innovative technologies, their place and role in foreign language education;
- ways of personal and professional self-improvement, self-development, self-regulation, self-organization, self-control;
- specifics and methods of teaching a foreign language in the conditions of inclusive education.

2) **Labor function: research**

Upon graduation, the graduate is able to:

- Explore the educational environment, educational practice, using the results of diagnostics of the individual characteristics of students; identify needs and difficulties in teaching foreign languages.
- Search, structure and systematize psychological and pedagogical knowledge, be capable of systemic thinking and a holistic perception of pedagogical activity.
- Conduct scientific research; independently acquire and use new knowledge and skills in research and practical activities, expand and deepen their own scientific competence.

To do this, the graduate must have:

Skills and abilities:

- uses the results of diagnostics of individual characteristics of students;
- reveals the needs and difficulties in teaching a foreign language;
- uses the methods of joint reflection with colleagues in the context of the study of practice; plans and conducts research on the educational environment;
- owns the skills of searching, formalizing, structuring and systematizing psychological, pedagogical and methodological knowledge;
- critically analyzes modern methodological systems and variable programs of early foreign language education in elementary school, specialized and specialized schools and chooses the most appropriate goals and conditions for learning;
- owns the skills of collecting, analyzing and storing scientific information;
- owns ways of understanding and critical analysis of scientific information;
- draws up the results of his research into a written scientific text in accordance with the general laws of the lexical and grammatical system of scientific speech and the existing requirements of regulatory documents;
- owns the skills of conducting research work;
- has the skills to identify the value orientations of a foreign language linguocultural community;
- owns the skills of grammatical, lexical analysis, literary and linguistic analysis of a literary text; analysis of text belonging to functional styles;
- owns the skills to improve and develop their scientific potential;
- analyze theoretical concepts, make comparisons, generalizations on their basis, draw a conclusion.

Knowledge:

- principles and methods of studying the educational environment, researching educational practice;
- research methods in pedagogy and methodology of foreign language education;
- methods and procedures for monitoring research in education;
- methods of psychological and pedagogical tracking of students' activities;
- technologies for the development of critical thinking, including for diagnosing and evaluating the quality of the educational process;
- organization of the process of conducting and the basic principles of constructing scientific research;
- various methods and means of collecting, processing and storing information;
- logical organization of scientific research, ways of expressing logical connections in the text of a scientific article and general rules for arguing scientific material;
- features of the scientific style and ways of their implementation in the field of scientific and educational academic communication;
- procedures for preparing and defending a thesis (project);
- principles and culture of academic honesty;
- basic methods of literary text analysis.

3) **Labor function: social and communicative**

Upon graduation, the graduate is able to:

- Be proficient in a foreign language in all aspects of speech and communication activities related to the future profession; skills of constructive dialogue, communication in a multicultural, multi-ethnic and multi-confessional society.
- Possess communication strategies and tactics, language norms and techniques adopted in oral and written communication; adequately use them in solving problems and professional tasks.
- Orient yourself in the historical, national, cultural, regional, linguistic contexts of the studied linguistic phenomena.

To do this, the graduate must have:

Skills and abilities:

- to implement the skills of foreign language communication in the context of business, scientific and professional communication, as well as within the framework of academic discourse;
- organize the structure and content of the academic text/discourse in accordance with the requirements of the genre and the purpose of communication;
- skills of socio-cultural competence; national and cultural communication in the business environment;
- skills of communicative competence for solving social and communicative problems in professional and scientific activities;
- make lexical and grammatical transformations to achieve the adequacy of oral and written translation;
- navigate in the historical, national and cultural contexts of the phenomena being studied

Knowledge:

- lexical material of the studied subjects of disciplines;
- specifics of national images of the world;
- national, historical, cultural, regional studies, linguistic features of the studied linguistic phenomena and realities;
- basic grammatical and lexical phenomena, rules of speech etiquette, characteristic of the English language in the field of professional, business and intercultural communications;
- features of the organization of the structure and content of the academic test / discourse, compositional and speech types, presentation forms, methods of analysis and argumentation;
- compositional and speech types of various speech works (abstract, annotation, review, report, essay) in line with professional and intercultural speech topics;
- the specifics of the use of the studied grammatical, stylistic, genre and punctuation phenomena in order to further the correct perception of scientific literature in English and their adequate use in solving professional problems.

Table 1. The sequence of mastering disciplines in the process of forming special competencies

№	Competencies	List of compulsory, elective disciplines and sequence studying them		Expected Result
		List of disciplines	The sequence of their study (semester)	
1	Special	1. Working with authentic texts	4 semester	<p>Know:</p> <ul style="list-style-type: none"> - the specifics of working with various types of authentic texts; - the lexical minimum necessary for the presentation of what has been read, heard and seen; - the main grammatical phenomena characteristic of oral and written speech. <p>Be able to:</p> <ul style="list-style-type: none"> - highlight the most important events and facts, highlight the main idea, idea; - understand the content of the text as accurately and adequately as possible; - describe actors, situations, as well as give an assessment; - give a semantic interpretation of the original text; - interpret the content of the text orally and in writing and express their own point of view on the topic of the text; - consistently state in oral and written form the facts, events read, heard and watched (text, picture and video film); - to express their own attitude to the actions of actors, to the described facts and events. - critically comprehend the information received, evaluate the facts and events. <p>Own:</p> <ul style="list-style-type: none"> - skills of extracting information from an authentic text; - skills of interpretation and analysis of authentic text.
	Special	2. Home reading	4 semester	<p>Know:</p> <ul style="list-style-type: none"> - the content of the studied works; - the lexical minimum necessary for the presentation of what has been read; <p>Be able to:</p> <ul style="list-style-type: none"> - to be able to analyze the text; - describe actors, situations, as well as give an assessment; - give a semantic interpretation of the original text; - express their own attitude to the events described, to the acting characters logically and grammatically correctly; - highlight the most important events and facts, the main idea; - interpret the content of the text orally and in writing and express their own point of view on the topic of the text. <p>Own:</p>

				<ul style="list-style-type: none"> - skills to extract information from the text; - Skills for predicting the plot.
2	Special	1. Country Studies	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - economic and political geography of the countries of the studied language; - the main historical stages in the development of states; - education system and basic educational programs; - culture, traditions and customs of states; <p>Be able to:</p> <ul style="list-style-type: none"> - talk about geography, political structure, history, culture, education, traditions and customs of Great Britain and the USA. <p>Own:</p> <ul style="list-style-type: none"> - skills of socio-cultural competence; - basic concepts related to the social spheres of the country; - lexical minimum of keywords and expressions containing basic information of sociocultural significance.
	Special	2. Lingua Country Studies	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - the realities of the country of the language being studied, the specifics of the main language units, reflecting the national characteristics of the culture of the people; <p>Be able to:</p> <ul style="list-style-type: none"> - to implement interpersonal and intercultural communication through adequate perception of speech in oral and written forms; - use information about the culture of the countries of the language being studied in their activities. <p>Own:</p> <ul style="list-style-type: none"> - skills and (or) experience in linguistic and regional commenting on linguistic and speech phenomena.
3	Special	1. Theory and practice of translation	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - basic concepts and principles of translation theory; - ways and means of achieving semantic and stylistic-functional correspondence between the original and the translation; <p>Be able to:</p> <ul style="list-style-type: none"> - to make lexical and grammatical transformations to achieve the adequacy of the translation. <p>Own:</p> <ul style="list-style-type: none"> - the conceptual apparatus of the modern linguistic theory of translation.
	Special	2. Basics of interpretation and translation	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - requirements for an interpreter; - features of translation activity in modern conditions; - basic translation models;

				<ul style="list-style-type: none"> - classification of varieties, methods and specifics of oral and written translation; <p>Be able to:</p> <ul style="list-style-type: none"> - to perceive the source text taking into account the individual characteristics of speech the bearer of the text; - use the most frequent translation correspondences; - apply translation transformations; - intonationally, lexically and grammatically correctly formulate statements in accordance with the norms of the language. <p>Own:</p> <ul style="list-style-type: none"> - skills of oral and written translation.
4	Special	1. Lexicology	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - basic concepts and concepts proposed in the framework of lexicology, - the main trends in the development of the vocabulary of the English language and its subsystems - the structure of word formation in English; - the role and functions of semes and morphemes in the structure of the word. <p>Be able to:</p> <ul style="list-style-type: none"> - read, abstract and discuss educational and scientific literature on lexicology, - draw independent conclusions and generalizations from observations of specific language material, - use dictionaries. <p>Own:</p> <ul style="list-style-type: none"> - basic skills of lexical analysis; skills to apply them in their professional activities - the skills of identifying and using linguistic stylistic expressive means (metaphors, metonymy, epithets, etc.)
	Special	2. Text linguistics	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - the main features of the text, the criteria of textuality; - means of interphrase communication, formation of text coherence; - general principles of text construction, its communicative organization; - the originality of texts of various styles and genres. <p>Be able to:</p> <ul style="list-style-type: none"> - to determine the constitutive and differential features of texts of various styles and genres; - use different methods of linguistic, linguo-stylistic and linguo-poetic text analysis; - perceive the holistic meaning of the text and the features of the implementation of the author's intention; - to define styles and genres of texts. <p>Own:</p> <ul style="list-style-type: none"> - conceptual and terminological apparatus of text linguistics; - skills of linguistic analysis of a literary text;

				<ul style="list-style-type: none"> - ways of understanding and critical analysis of scientific information in the field of text linguistics; - skills to improve and develop their scientific potential in the field of linguistics.
	Special	3. Cognitive linguistics	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - modern paradigms in cognitive linguistics; - theoretical foundations for the organization of research activities in the field of cognitive linguistics; - ways to improve the linguoculturological, linguistic and communicative competencies of trainees; - ways of conceptual organization of knowledge in the process of understanding and constructing messages. <p>Be able to:</p> <ul style="list-style-type: none"> - analyze trends in modern science, identify promising areas <p>Cognitive Linguistics;</p> <ul style="list-style-type: none"> - use experimental and theoretical research methods in professional activity; - describe the language picture of the world; universal and non-equivalent in language; - apply the methods of conceptual analysis of the word and text in practice. <p>Own:</p> <ul style="list-style-type: none"> - skills of information processing and interpretation of texts; - skills of modern cognitive and lexical analysis; - ways of understanding and critical analysis of scientific information in the field of cognitive linguistics; - skills to improve and develop their scientific potential in the field of cognitive linguistics.
5	Special	1. Theoretical foundations of English language	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - phonetic system of modern English; - the current state of research in the field of general phonetics; - the phenomenon of phonetic interference. - features of the grammatical structure of the English language; - features of language units in the unity of grammatical meaning and morphological indicators, connections between lexical and grammatical levels, field organization of language units. - the concept of a grammatical category and the factors of its implementation in the system of word classes in modern English, basic part-of-speech categories. - basic concepts of syntax and aspects of its study, idio-ethnic specifics of the structure of the modern English language and factors influencing the syntactic organization of the main units of syntax. <p>Be able to:</p> <ul style="list-style-type: none"> - explain the basic concepts, processes and phenomena occurring in the systemic organization of the phonetic structure of the modern English language, analyze and generalize phonetic

				<p>phenomena; - apply the methods of grammatical analysis to analyze specific language material. Own: - skills in the analysis of phonetic phenomena; - skills of grammatical analysis of language material.</p>
	Special	2. Stylistics	5 semester	<p>Know: - the main issues and provisions of stylistics that contribute to a deep, correct understanding of a particular work, taking into account and comparing the interaction of all means of expression within the text; - the main provisions of functional stylistics (classifications, features and functions of various functional styles of the English language). Be able to: - choose and adequately use lexical units depending on the context; - apply discursive ways of expressing factual, conceptual and subtext information in a foreign language text in accordance with the functional style; - identify and produce various types of written texts in English, taking into account their communicative functions, functional styles, in compliance with grammatical and syntactic norms; - take into account the stylistic characteristics of the source text and observe the stylistic norms of the translated text. Own: - skills of stylistic construction of texts to achieve their coherence, consistency, integrity based on compositional and speech forms; - skills of analysis of text belonging to functional styles; - skills of recognition of expressive means and stylistic devices in functional texts.</p>
6	Special	1. English language for the special purposes (level C1)	5 semester	<p>Know: - functional varieties of dialogic and polylogical communication within the framework of general professional and intercultural topics; - compositional and speech types of various speech works (abstract, abstract, review, report, essay) in line with the mainstream topics of general professional and intercultural orientation. Be able to: - understand authentic spontaneous monologue and dialogic speech within the studied language material; - read and analyze original fiction, scientific and socio-political literature, based on the studied language material; Own: - the skills of monologue and dialogic (spontaneous and prepared) speech in situations of official and informal communication within the studied language material; - productive written speech within the studied language material.</p>

	Special	2. British and American English	5 semester	<p>Know:</p> <ul style="list-style-type: none"> - the main differences between British English and its American version; - phonetic differences between British and American English; - grammatical characteristics of American English; - lexical features of British and American English; - features of colloquial speech of residents of Great Britain and the USA; - the most common Briticisms and Americanisms. <p>Be able to:</p> <ul style="list-style-type: none"> - search, analyze and summarize information about the features and differences between British and American English; - understand American and British English by ear; - communicate fluently in English, taking into account the peculiarities of the British and American versions of the language. <p>Own:</p> <ul style="list-style-type: none"> - skills of oral and written speech in English, taking into account the peculiarities of its British and American variants.
