AP22686946 The problem of ecology in Kazakh literature (using the example of the Semipalatinsk test site)

Section of the calendar plan with description	Implementation deadlines	Brief description of the work performed/results obtained	Information on possible use
№. 1 Collection, research, analysis of works on the topic of ecology in fiction. Ecology in fiction, the study of theoretical foundations related to the Semipalatinsk test site, carrying out assembly work, participating in conferences or seminars, and making trips abroad.	July - November 15, 2024	On the topic of ecology (Semipalatinsk landfill), materials were collected on the pages of the periodical press, which boldly wrote and revealed the truth. The works of the poet-writers, written on the theme of ecology, were grouped by genre. Expert work has been carried out, including copies of letters and protocols from archival collections in the cities of Almaty, Semipalatinsk, Kurchatov, Kazakhstan, telling about the events that took place at the nuclear test site and the experimental site. The materials on the project topic were summarized, and a report was made at the conference. Domestic business trips have been carried out. G. Kurchatov - 29.10.2024-30.10.2024 Almaty-11/22/2024-11/9/2024	"Nevada-Semipalatinsk", "Semipalatinsk Proving Ground", "Kainar syndrome", which raise environmental issues, conduct literary analysis of works of art, promote them among modern youth. Since the topic of ecology is an important event, deeply rooted, affecting the life of mankind for many centuries, a correct and accurate understanding of the historical reality and artistic solutions of this period. The effectiveness of the research lies in environmental education in a public environment, the formation of environmental awareness.
№. 2. Based on the results of a comprehensive scientific study of the reminiscence of environmental problems in fiction, develop 1 article for a domestic publication recommended by the KKSON.
